SERIOUS PLAY™

Collect Up To 1600 Movies

With the ability to connect as many as 4 Sony DVP-CX777ES 400 disc DVD changers, you can watch movies for over 100 days without stopping. That's a new movie every night for almost five years!

Intelligent Lookup

VideoReQuest utilizes industry leading technology to automatically lookup DVD information via an internet connection. Learn more about your favorite movies including plot, cast, director, rating and genre.

High Quality Movie Reproduction

Through the use of high bandwidth external video switching, the VRQ provides pristine reproduction of your movie selection. Don't settle for alternatives that utilize low cost onboard switching solutions.

Manage Your DVDs

With industry leading capabilities you can quickly find your DVDs with our unique search options such as Recently Added and Recently Played. You may also find your DVDs by MPAA rating, actor, director, or changer.

Manage from Anywhere

With a built-in web server, the VideoReQuest can be controlled or edited from any networked computer (locally or via the internet) with an easy-to-use point-and-click interface that replicates what you see on the TV screen.

Engineering and Design Excellence

The VideoReQuest has been decorated by the industry as the best in class. Awards include the CEDIA Best New Product, EH Product of the Year and the Custom Retailer Magazine's Excite Award.

Find Your Movies Instantly

VideoReQuest is a powerful search tool allowing you to take full control of your movie experience.

Why is VideoReQuest the Premier Digital Video Solution?

- Cost - VideoReQuest offers the same functionality as a hard-drive server at a mere fraction of the price
- VideoReQuest makes the DVD changers behave. Playing movies skips the commercials and previews
- Advanced edit and search features for new DVDs
- Dramatically reduce costly programming time with pre-made VRQConnect protocol modules for Serial and Ethernet control of leading integration systems
- Automatic discovery of DVD information using Internet lookup
- Accommodate High Definition Video and give your collection the respect it deserves. VideoReQuest can output high-definition 720p component video and is designed to use high quality external video switches that can handle high bandwidth, offering superlative quality.

What You'll Need

VideoReQuest units require at least one Sony DVP-CX777ES 400 disc DVD changer (you can have up to four) and an external video switch.

Number of Changers	Number of DVDs
1	1-400
2	401-800
3	801-1,200
4*	1,201-1,600

*4 changers require a control system such as Crestron or AMX
