

AudioReQuest

Z.Series

The Z.Series provides an additional audio zone and automatic backup of your music collection

YOUR MUSIC, SAFE AND SECURE

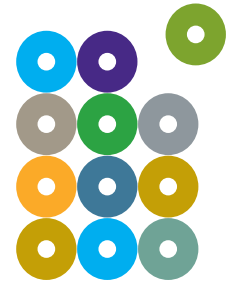

- Provides an extra independent zone for F.Series and N.Series units for other rooms or locations
- Automatically backs up your music collection via NetSync™ from F.Series or N.Series units
- Use our AudioReQuest™ QuickSwap™ drives to transport your music anywhere, without internet access
- Instantly access hundreds of CDs by Artist, Album, Genre and Song
- Enjoy intuitive and easy to use interfaces

YOUR MUSIC ANYWAY, ANYWHERE IN THE WORLD

- Z.Series is the perfect and most cost effective way to expand an F.Series or N.Series based system to another room, another house or another country
- JavaRemote™ turns any PC or Mac into a powerful 2-way interface
- ARQPocket™ software available for full 2-way wireless control on PocketPC (shown, see photo)

ULTIMATE MUSIC SOURCE FOR ANY A/V SYSTEM

- *New touch screen interface* for supported 3rd party panels
- 2-way ethernet and serial control for high-end control systems
- Built-in TV interface for standalone and modulated IR systems
- Keypad-friendly QuickPlay™ commands
- Slimline 1U chassis takes up minimal space in an equipment rack
